

Women in STEM Scholarships

Are you looking for a qualification that could enhance your science, technology, engineering or maths (STEM) career?

Scholarships for Women in

Scholarships for Women in STEM

In partnership with the British Council, we are proud to support the Women in STEM initiative.

We are offering six fully funded scholarships for female STEM graduates living in Argentina, Brazil, Colombia, Cuba, Jamaica, Mexico, Peru and Venezuela to study an applicable Master's degree here at Robert Gordon University (RGU).

If you have a background in STEM and are facing economic challenges, the British Council Scholarships for Women in STEM could be your route to a world-class qualification.

Main Benefits

- Fully paid tuition to study at RGU, currently ranked 2nd in the UK* for overall student satisfaction (NSS 2020). *Excludes small, specialist and private providers.
- Grant to cover living costs up to fifteen months.
- Special support for mothers.
- The internationally valued prestige of being a British Council Scholar.
- Inspire the next generation of females to pursue a career in science, technology, engineering and maths.

Eligibility Criteria

- Be a woman (cis-gendered or trans) or identify as non-binary.
- Be a passport holder and permanent resident of one of the eligible countries.
- Be able to study a full-time course for the academic year from Sept 2021-2022.
- Have an offer to study with RGU.
- Demonstrate a case for financial support / socio-economic need.
- Be a self-funding student; not in receipt of financial support or funding towards your study programme in the UK from any other source.
- Have not previously studied at degree level or higher in the UK, or lived recently in the UK.
- Meet the English language requirement required for postgraduate study now or after completion of a 5-week English Language pre-sessional course.
- Be motivated and academically able to follow and benefit from a UK postgraduate taught course.
- Be active in the field with work experience or with a proven interest in the proposed subject area.
- Be willing to demonstrate future contribution to capacity-building and socio-economic advancement through the benefits achieved after graduating from UK higher education.
- Agree to maintain contact with the British Council and act as an ambassador for the UK, engage with activities as part of a Scholarships for Women in STEM alumnus during and after your studies in the UK.
